Symbols of Varna

Situated on St. Cyril and St. Methodius Square in Varna, The Cathedral of Holy Assumption is one of the main symbols of the city. It is named after the Russian Empress Maria Alexanrovna, benefactor of Bulgaria and aunt of the Prince.

It is famous by its rich frescoes, the stained glasses and the roof construction enriched with a shade of gold and silver which symbolize the city.

Address: 1, "Cyril and Methodius" Square

The temple was built as a result of donation in 1866 and it is honored by Varna sailors whose patron is namely St. Nicholas with the Bulgarian name St. Nicola.

In front of the church there is a monument Paraskeva Nicolau – the Russian citizen and benefactor, native of Varna city.

Address: 35 "Knyaz Boris I" Blvd.

The church "St. Athanasius" was built in 1838 and it is situated near the Roman Baths in Varna. A peculiarity of the temple is that there are no domes but despite that fact it has exceptional good acoustics.

The Sea Garden is Varna's largest, oldest and best known park, also said to be the largest landscaped park in the Balkans. It is located along the city's coast, next to the center and it is important attraction and a national monument of landscape architecture.

There you can visit the Natural Science Museum, the Naval Museum, the Copernicus Astronomy Complex planetarium, the Zoo and the Terrarium. Here one can find the only Dolphinarium and Aquarium in the country.

Seaside Park - this is the biggest park in Varna, situated by the beach. Its construction was commenced in 1878. Within the park area one can find the Seaside Baths, the Naval Museum, the Natural Science Museum, the Aquarium (with a unique exhibition of water organisms – mainly Black Sea, freshwater and tropical fish species), the Astronomical Observatory and the Planetarium which organizes observation sessions for its visitors, the Dolphinarium with an amusing show where the main stars are the most intelligent water creatures on Earth-the dolphins, etc.

The singing fountain on Independence square in Varna is the tallest fountain in Bulgaria with its impressive water jet of 41m height and beautiful combination of lighting and sounds. The water landmark includes 400

LED lights, 52 water pumps and a modern computer system. This incredible show, created by more than 2,000 color combinations, spectacular water jets and all-time music hits, became a favorite attraction for all the people in Varna, both residents and tourists. There are special weather vanes and instruments which monitor the environment conditions, in order to regulate water flow and ensure the security of citizens and visitors of the city. During the day, the fountain still works, but without lights so the view is definitely more impressive during the night when the lights are turned on.

Further from the center, a granite monument commemorates the Battle of Varna, which took place in 1444. Here 30,000 Crusaders were waiting to sail to Constantinople when they were attacked by 120,000 Turks. The Polish King Ladislav was killed in a bold attempt to capture the Ottoman Sultan Murad. After his heroic death the nickname Varnenchik was attached to his given name. The subsequent retreat foreshadowed Christendom's general retreat before the advancing Ottomans.

The 2nd century thermæ (warm baths) are the main part of the remains of the largest Roman public building in Bulgaria. During this century a large part of this historical site has been revealed by the archaeologists. Thus a very thorough and exact description of this important landmark has been achieved, though some parts of the building remain hidden under the streets nearby. Coming across an extensive ancient building amidst the streets and houses of a modern city is not unusual in Bulgaria, but it is always a delight.

18.05 - 24.12.2022, Varna Museum of Archaeology, Hall "South"

Exhibition of artefacts and articles from Varna's Chalcolithic Necropolis.

The necropolis is a cemetery of the inhabitants of the socio-economic center of the highly developed community having inhabited the Northwestern Black Sea coast in the period 4600-4350 BC. With the variety of burial practices and the huge number of finds of different materials, Varna Chalcolithic necropolis is undoubtedly the most remarkable and significant monument of prehistory not only in the Balkans and Europe, but also all over the world. It illustrates the first stages of the emergence of a society with a complex hierarchical organization and established power structures.

**18.05 - 24.12.2022г., Археологически музей Варна, Зала "Юг",
Изложбена композиция от артефакти и обекти от Варненския
некропол.**

Преди половин век, след едно случайно откритие край Варна, започва проучването на неподозирано богат некропол, датиран в късната каменномедна епоха (4600 – 4350 г. пр. Хр.). Значимостта на този обект се превръща в световна сензация, тъй като той надхвърля всички изградени дотогава представи за праисторическото общество.

Откриването на некропола дава мощен тласък на праисторическите изследвания в Югоизточна Европа и мотивира учените от цял свят да работят усърдно, за да разкрият и обяснят начина на живот на древните ни предшественици. България не остава изолирана от тези процеси. За изминалите петдесет години във Варненско са открити и проучени редица обекти, даващи нова и ценна информация за населението на района през каменномедната епоха. Днес картината на заселването и социалното и икономическо развитие на тази територия е значително по-ясна, благодарение на усилията на археолозите от Варненския Археологически музей и Националния археологически институт с музей при БАН. Резултатите от тяхната работа са представени в изложбата "Нови хоризонти в праисторията".

Началото на „Морско казино“ е поставено през далечната 1926г., когато тогавашната управа на Варна работи за развитието на града като френска Ривиера на Балканите. В тази връзка започва и изграждането на Морско казино по проект на арх. Желязко Богданов (1893-1946).

В Морско Казино Варна са разпределени седем зони (два ресторанта, бистро, нощен клуб, детски кът, арт галерия, козметичен салон), всяка от които е проектирана с изтънчен дизайн, за максимално удобство на неговите гости.

Морското казино на Варна - традиция и съвременност на няколко поколения!

The intentions of Varna governing bodies at the age to establish the city as the French Riviera on the Balkans led to the construction of the Sea Casino Varna, which began in 1926 on design of architect Jelyazko Bogdanov, just 100 meters from the beach.

There are seven spots (two restaurants, bistro, nightclub, children's corner, art gallery, beauty salon) for different events in Sea Casino Varna. Each of them is designed with sophisticated design for maximum convenience to the guests of the casino.

The Sea Casino Varna - tradition and modernity of several generations!

WELCOME TO BULGARIA

Welcome to one of the oldest European states with 6000-years old gold treasures, a center of ancient civilizations, a country that hosts the sanctuary of the mystical singer Orpheus and gave to the Slavonic people the Cyrillic alphabet. Bulgaria is the only one country in Europe that hasn't changed its name since it was first established. The Bulgarian army has never lost a single flag in battle. The flag of Bulgaria is a tricolor consisting of three equal-sized horizontal bands of (from top to the bottom) white, green and red. It was first adopted after Russo-Turkish War (1877-1878), where Bulgaria regained independence. The current flag was re-established with the 1991 Constitution of Bulgaria.

HISTORY

The Bulgarian state was founded circa **681** as a union of the new-settled Proto-Bulgarians, of seven Slavonic tribes who have already settled this territory and with the inclusion of some smaller ethnical groups (Thracians and others). The state was ruled by its founder Khan Asparuh, the leader of the proto-Bulgarians and the first Bulgarian capital was Pliska.

The Thracians were a tribal society who inhabited a vast area in Central and Southeastern Europe. They were well-known in the Ancient world for making filigree gold and silver jewelry. The great Homer described in his masterpiece Iliad a Thracian king, having "the biggest and the most handsome horses I have ever seen, /whiter than snow and swifter than the winds/and a chariot finely wrought with silver and gold."

IMPORTANT & SIGNIFICANT EVENTS

681 – The Bulgarian state acquired political recognition from the Byzantine Empire.

718 – The Bulgarian Khan Tervel has stopped the Arabic invasion to European continent.

855 – The Cyrillic alphabet by the brothers Cyril and Methodius. It corresponded perfectly to the phonetic riches and needs of the Slavonic-Bulgarian language. As of today more than 250 million people in Europe and Asia use the Cyrillic alphabet for their national languages.

864 – During his rule Knyaz Boris I converted the state to Orthodox Christianity.

893-927 – During the Golden Age of Tzar Simeon The Greatest the First Bulgarian State stretched gradually from Transylvania in the north, to the Aegean Sea in the south, from the Black Sea in the east and to the Adriatic Sea in the west. At this time Bulgaria gradually reached its cultural and territorial apogee, when it developed into the cultural and literary center of Slavic Europe, as well as becoming one of the largest states in Europe.

1018 – The Bulgarian army fell to Byzantines and after that the Bulgaria State had been conquered by the Emperor Vassileios II.

НАКРАТКО ЗА БЪЛГАРИЯ

Добре дошли в България, една от най-старите държави в Европа със златно съкровище на 6000 години, център на древни цивилизации – страната, в която се намират светилището на мистичния певец Орфей и дала на славяните кирилицата. България е единствената трана в Европа, която не е сменила името си, откакто е създадена. Българската армия никога не е загубила флагът си в битка. Знамето на България е триколюор, състоящ се от три равни хоризонтални ленти от (от горе на долу) бяло, зелено и червено. За първи път е приет след Руско-Турската Освободителна война (1877-1878 г.), с която България възвръща независимостта си. Настоящото знаме бе възстановено с Конституцията на България от 1991 г.

ИСТОРИЯ

Българската държава е основана около 681 като съюз между новозаселилите се прабългари, както и седем славянски племена, които вече са населявали тези територии и с включването на няколко по-малки етнически групи (траки и други). Начело на държавата е бил основателят ѝ Хан Аспарух, водачът на прабългарите, а първата българска столица е Плиска. Траките са били племенен строй, който е обитавал долините на Централна и Югоизточна Европа.

Те са били известни в древните времена като майстори на златни и сребърни бижута. Великият Омир описва в шедьовъра си „Илиада“ тракийския цар, който притежава

„най-големите и най-красите коне, които някога съм виждал,/ по-бели от сняг и по-бързи от вятъра/ и колесница, изработена от фино сребро и злато.“

ВАЖНИ И ЗНАЧИМИ СЪБИТИЯ

681 – Българската държава получава политическо признание от Византия

718 – Българският Хан Тервел спира Арабското нашествие на европейския континент

855 – Братята Кирил и Методи създават българската азбука (кирилицата). Тя кореспондира перфектно с фонетичните нужди на славяно-българския език. Днес над 250 милиона души по света в Европа и Азия използват кирилицата, за да пишат на своите национални езици.

864 – По време на управлението си княз Борис I приема православно християнство като официална религия.

893-927 – По време на Златния век на Цар Симеон Велики Първата Българска държава се е разпростирила до Трансилвания на север, до Бяло море на юг, до Черно море на изток и до Адриатическо море на запад. По това време България достига своя културен и териториален апогей, същевременно се превръща в културен и литературен център на Славянска Европа, както и става една от най-мощните държави в Европа.

1018 – Българската армия пада от Византия

1185 – The Second Bulgarian State was established at Veliko Tarnovo, reinstated the borders of the First Bulgarian Kingdom and a second Golden Age began during which Bulgaria expanded its borders to the shores of Black, Aegean and Adriatic seas.

1396-1878 – The country was under the rule of the Ottoman Empire.

1878 – Liberation from the rule of the Ottoman Empire. Establishment of the Third Bulgarian State.

1878-1879 – As the result of the Treaty of Berlin, the Bulgarian State was divided in two territories. An autonomous Principality of Bulgaria was created, between the Danube and the Stara Planina range, with its seat at the old Bulgarian capital of Veliko Tarnovo, and including Sofia. An autonomous Ottoman province under the name of Eastern Rumelia was created south of the Stara Planina range, whereas Macedonia was returned under the sovereignty of the Sultan.

06.09.1885 – The establishment of the Unification of Bulgaria. On that date Eastern Rumelia rejects the rule of Sultan and announced that joined the Principality of Bulgaria. Two days later, the Prince Alexander Battenberg First signed a manifesto to approve the accession of the field and taken to be titled as a future prince of Northern and Southern Bulgaria.

1944 – The After Communist Party, led by Georgi Dimitrov, took the power as a result of almost bloodless coup d'état and proclaimed Bulgaria for a "People's Republic" in 1946 after a controversial referendum.

10.11.1989 – The Communist regime ended

when Bulgaria peacefully ousted the Communist Party leader Todor Zhivkov.

1989 – The establishment of a multi-party system and the begging of the Bulgaria's democratization.

12.07.1991 – The new Constitution of the Republic of Bulgaria was adopted and it proclaimed the country as a parliamentary republic.

29.03.2004 – Bulgaria joined NATO.

01.01.2007 – The country became a member of the European Union.

BORDERS THROUGH THE CENTURIES

Bulgaria has expanded twice its borders to the shores of Black, Aegean and Adriatic seas. Bulgarian Empire is a term used to describe two periods in the medieval history of Bulgaria, during which it acted as a key regional power in Europe in particular, often rivaling Byzantium. Here is the picture of Bulgarian borders in our days.

Автономна османска провинция под името Източна Румелия е създадена на юг от Стара Планина, докато Македония е върната под суверенитета на султана.

06.09.1885 – Обявяване на съединението на България. На тази дата Източна Румелия отхвърля управлението на султана и обявява, че се присъединява към Княжество България. Два дни по-късно княз Александър I Батенберг подписва манифест, с който одобрява присъединяването на териториите и се обявява за княз на Северна и Южна България.
